## Our 1-Year Health Warranty Agreement

**GUARANTEE:** We provide a one-year guarantee that your puppy is free from major life-threatening health issues resulting from genetic factors, such as hip or elbow dysplasia, patella luxation, and certain types of cancers like lymphoma. If your puppy is diagnosed with such a condition by a licensed veterinarian within the first year after purchase, we offer two options: a refund of up to half of the original puppy price or the opportunity to choose another puppy of the same breed.

**LIMITATIONS:** It is important to note that our guarantee does not cover normal illnesses or conditions that may arise due to factors like stress from relocation (from our home to yours), shipping, or motion sickness. Additionally, we cannot guarantee the precise adult size, color, or temperament of the puppy, as these factors can vary. Our estimates are based on the breeder's experience.

**RESPONSIBILITY:** We highly recommend that the buyer promptly arranges a veterinary examination for the puppy upon receiving it to ensure its overall health. Once the puppy is in the buyer's possession, any incurred veterinarian bills are the buyer's responsibility, along with assuming full responsibility for the puppy's care thereafter.

**CARE:** The buyer agrees to maintain the dog in good physical condition by adhering to regularly scheduled vaccinations, dewormings, and providing appropriate flea, tick, and heartworm prevention. Furthermore, the buyer commits to offering proper shelter, exercise, fresh water, nutritious dog food, treats, and other necessary care as advised by a veterinarian.
